OUR BEAUTI-**FUL 72 PAGE CHRISTMAS** CATALOGUE.

New Yorkers grow wiser year by year. Never before did we know so many to make early Holiday selections. Stocks are now at their very best. And we are glad to help in other ways-we put your selections aside for future delivery; you may change your mind later if you wish. After to-night open every evening till Xmas.

We would like to show you our modern jewelry factory with its improved much nery, its perfect facilities. Unequalled, you'll say. Yet with all this equipment, (on the premises) we are compelled to announce that work to order, special designs and special products of any sort cannot be promised unless ordered without delay.

Early buying of Diamonds is also advised—though for that the need is not so urgent. We have a great stock to sell at the old low prices (less than wholesalers now ask), but people are beginning to realize how big a saving it means, and the demand is growing larger than we had expected. This increase is most noticeable on stones costing \$300 and less. If there be a hint for you in this, profit by it.

The Pianola is an instrument by means of which any one can play the Piano.

When you stop to consider that the program given at to-mor ow' recital can be rendered by an one, even if he literally does not means by which this is accom-

terest.
The question then arises how well the various selections may be played.

The remarkable achievements of the Pianola are supplemented by the still more remarkable fact that they have been indorsed by practically every musician of note. and that their popularity is a extensive among the musically cultured as among the unskilled. The recital to-morrow affords you an opportunity to judge the instrument from actual pe formance, and to hear an enjoyable musical entertainment.
